

Assignment 4

3: Your best ideas

Tips:

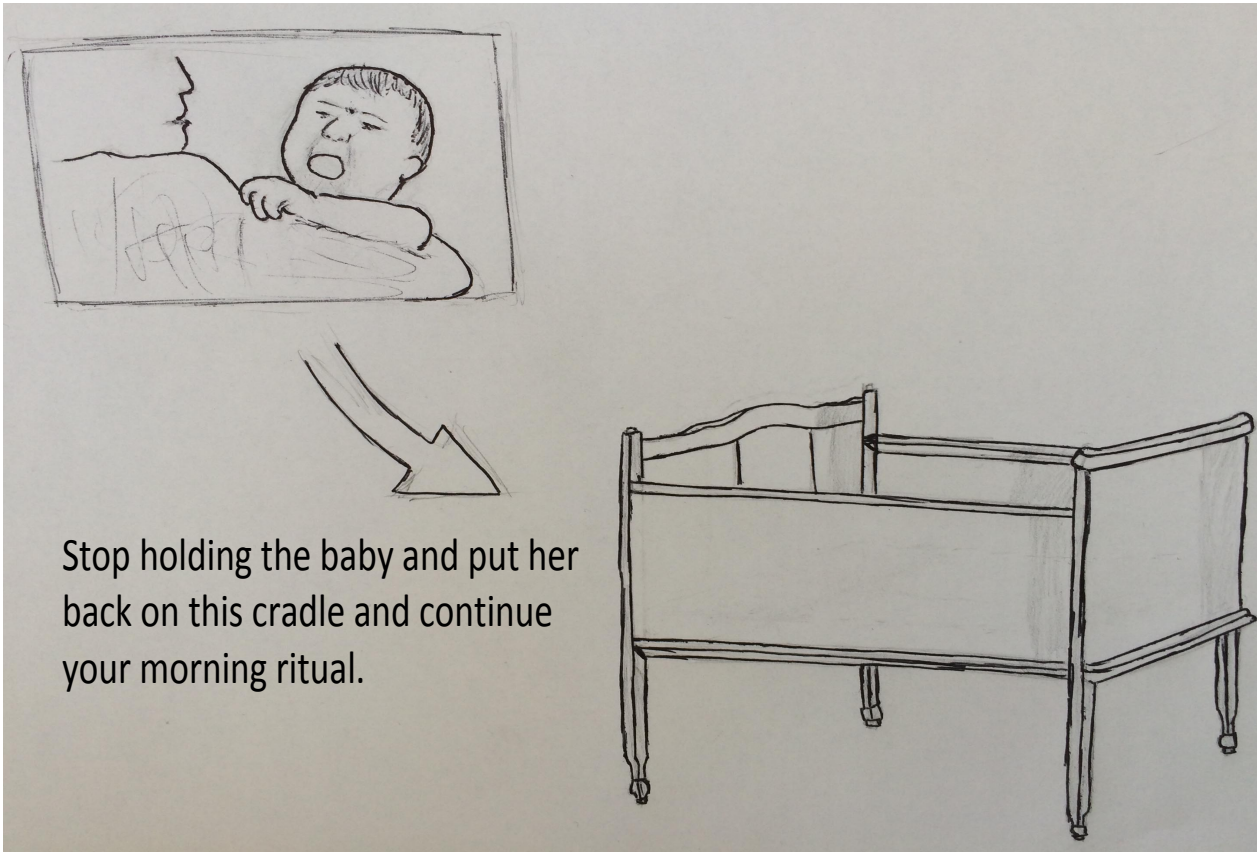

- draw & describe your idea
- add different views
- show how it is used

Idea 1

Title of your idea: Womb

Description: A cradle that recreates a womb environment. It responds to baby's cry and creates white noise and swings.

Why this idea solves your design challenge:
If generation of noise is unavoidable, baby may wake up and cry. Parents don't have to pay much as this cradle would do the soothing.

DESIGN CHALLENGE

I want parents to stop worrying about the noise they make around their newborn during the first months of their baby because part of their ritual gets prolonged or eliminated to keep the baby asleep.

Idea 2

Title of your idea: Illusion

Description:

A headphone optimized for blocking sound. It doesn't transduce sound.

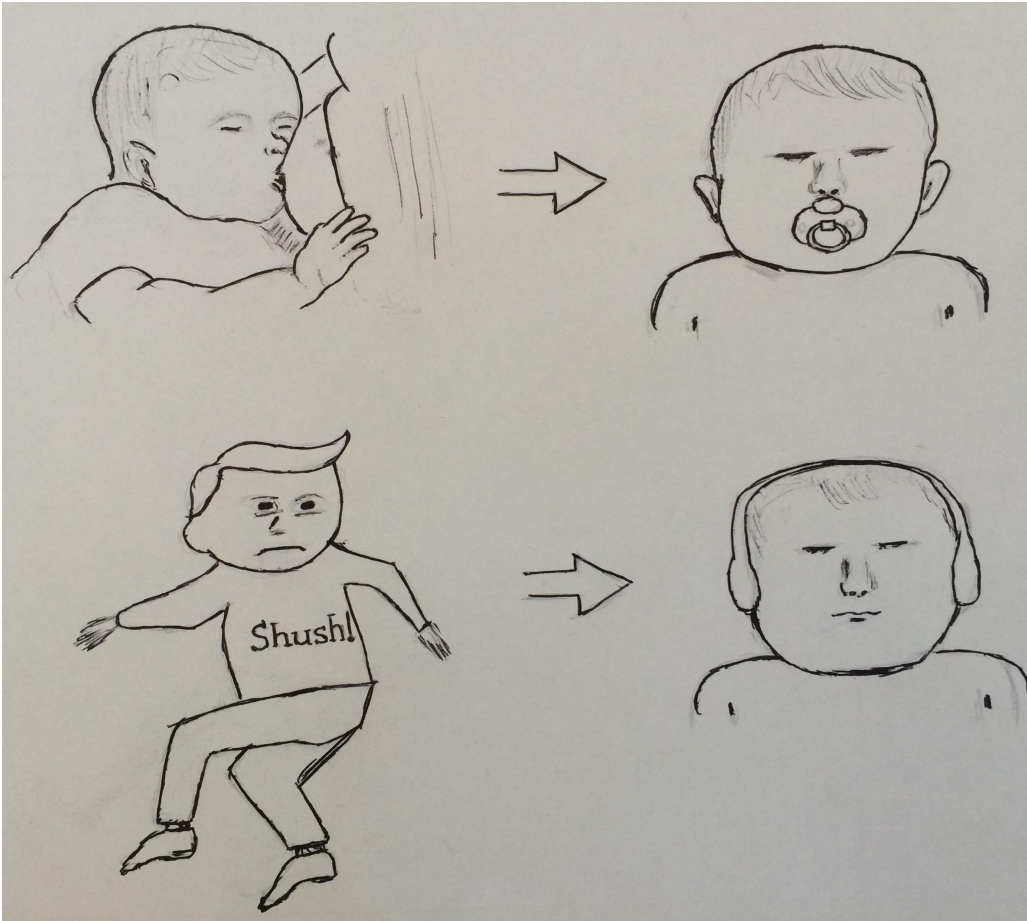

Why this idea solves your design challenge:

Noise generated by parents could stimulate a baby. Such noise could be too loud in the silence or mornings or the REM stage of baby's sleep.

This idea intends to eliminate such noise.

Tips:

- draw & describe your idea
- add different views
- show how it is used

Breastfeeding

Pacifier

avoided by

Tiptoeing

Soundproofing

Idea 3

Title of your idea: Disco

Description:

A soft item that has alternating color flashes with music, that baby could play with.

Why this idea solves your design challenge:

When a baby is awoken or his attention is diverted to parent, this item would keep the baby distracted or busy.

Tips:

- draw & describe your idea
- add different views
- show how it is used
